

#1

It makes us so happy to finally see beautiful tulips growing in our yard. We are excited because, when you see a tulip grow, it means winter is over. Tulips make the air smell wonderful around them. The colors are so refreshing after months of white snow!

#2

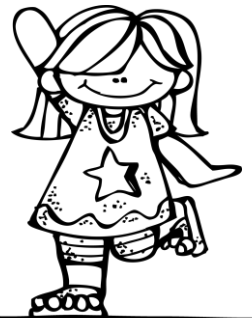

Motor biking is the most fun activity ever. When you go motor biking, you can bring friends and family. There are many curving trails in the mountains you can ride on. When you are riding, the wind blows through your hair, and you feel free--almost like you could fly!

#3

A fun activity in the winter is to be pulled behind a four-wheel drive vehicle on a sled.

This is exciting because you don't have to walk up and down tall hills. You can also ride in the sled with your friends or cousins. If you put old pillows in the bottom of your sled, you can lay back and relax.
